INTRODUCTION

I'm a passionate and motivated individual in search of a position that not only offers me the opportunity for growth and development that I seek, but also challenges me, providing valuable experience in navigating and overcoming the multifaceted challenges of web development. With a strong foundation and readiness to learn, I am poised to contribute to and grow with my future employer, actively engaging with the team and participating in creating innovative solutions.

RELEVANT SKILLS:

- Proficient in programming languages: HTML, CSS, JavaScript, React.
- Strong understanding of database design and development using MySQL and MongoDB.
- Experienced in server-side programming with Node.js.
- Familiarity with version control systems such as Git and GitHub.
- Knowledge of responsive design principles and cross-browser compatibility.
- Excellent problem-solving and troubleshooting abilities.
- Good comunicator, listening and giving my perspective.
- Familiar with SOLID principles.

WORK EXPERIENCE:

- Face-to-face waiter in Australia. (2020-2023)
- Machinist at the theater of valladolid (2018-2020)
- Rugby referee in Spain (2017-until now)
- Professional rugby player in El Salvador Rugby (2013-2019)

EDUCATION

Degree of Children Education at the University of Valladolid.
